

Hair loss, baldness and other anomalies treatments

Kyklos lotions

Kyklos vials

Kyklos food supplements

Kyklos

Treating, preventing
and fighting baldness,
hair loss and other problems.

Benefits

Helps prevent and treat hair loss and other problems such as **baldness, sebum, dandruff** or **trichodynia**, restoring balance to the scalp thanks to the efficacy of the essential oils and plant extracts.

The **Kyklos** system combines shampoos and precious cosmetic synergies with specially formulated food supplements to treat different problems with targeted, effective results.

4 food supplements

The *Kyklos shampoo* are real healing fluids, packed with functional essential oils and active ingredients. The *synergies*, which contain plant-based essential oils and functional ingredients, reach the innermost layers of the epidermis and dermis.

3 fluid shampoos

Densifying	Liquid shampoo that is applied to the scalp and is ideal for preventing miniaturisation. It helps with baldness-related problems.
Toning	Liquid shampoo that is applied to the scalp and is specially formulated to restore skin microcirculation and revitalise the hair bulb. It contains essential oils and has an invigorating effect on the hair bulb, preventing hair loss.
Libera	Liquid shampoo that is applied to the scalp and is specially formulated to treat scalp conditions, as it purifies and cleanses without disrupting the delicate balance of the epidermis which is already in difficulty. When used regularly, it removes dandruff and prevents it coming back.

4 synergies

Densifying Pre 8 vials x 7 ml	This synergy is applied before the shampoo and contains essential oils, which help to reactivate microcirculation and strengthen metabolic exchanges, making the hair bulb stronger and helping treat problems associated with baldness, excessive hair loss and alopecia.
Densifying Post 8 vials x 7 ml	This synergy is applied after the shampoo and contains essential oils and essential microelements from fermented natural yeasts. They help reactivate microcirculation and strengthen metabolic exchanges, making the hair bulb stronger.
Intensity synergy 8 vials x 7 ml	This synergy boosts the effect of the Densifying treatment. Thanks to the Serenoa repens in the formula and precious essential oils, it helps prevent early miniaturisation of hair thanks to the topical action which restricts synthesis of dihydrotestosterone (DHT). Optional for women of child-bearing age.
Libera synergy 8 vials x 7 ml	This synergy frees and restores balance to the scalp, has a soothing and calming effect and is ideal for treating flaky, oily, irritated and sensitive scalps. It helps reduce itching and redness of the scalp, often associated with desquamation.

These food supplements have been specially devised and developed for specific users. They complete the protocol, working from the inside to give the body the precious substances it needs to restore nutritional balance during the different stages in life.

4 food supplements

In woman 60 tablets	Specially formulated to supplement the diet of women of child-bearing age who are suffering from baldness. The nettle and silica in the formula make it ideal for hair and nails, while minerals such as zinc and iron and group B vitamins help keep hair healthy.
In woman Plus 60 tablets	Formulated for women in menopause who need a customised supplement to their diet to accompany baldness treatments. It is enriched with soy isoflavones and fatty acids extracted from Serenoa repens. The minerals, including zinc, iron and selenium and group B vitamins help keep hair normal.
In man 60 tablets	Food supplement for men which is suitable for all ages and is part of a wider treatment to help prevent miniaturisation and baldness. The fatty acids extracted from Serenoa repens work in synergy with the beta-sitosterol to control excessive synthesis of dihydrotestosterone, also known as the baldness hormone.
In active 60 tablets	Food supplement formulated with cystine and methionine, sulphur-containing amino acids and precursors of cysteine, an essential component of keratin in hair. This exclusive formula of specific nutrients prevents widespread hair loss and helps make hair and nails beautiful again. Suitable for men and women of all ages. Enriched with red vine, selenium, zinc, copper, vitamin E, group B vitamins, iron and Coenzyme Q10.

step

step by step

step 1

pre-shampoo treatment

Apply the vial to a dry scalp, pressing down gently with your fingertips to help it absorb. To make sure you apply the product over the whole area, divide the hair into sections with a comb. Leave for 10 minutes, covering the hair with the plastic cap.

step 2

shampoo

Apply the shampoo to a dry scalp, massaging in gently. Leave for a couple of minutes.

step 3

rinse

Add water, emulsify into a light foam and massage gently. Rinse.

step 4

post-shampoo treatment

Apply the synergy (choose the vial according to the protocol recommended) to a dry scalp, pressing down gently with your fingertips to help it absorb. Leave act for 5 minutes before drying.

step 5

supplement

Take 2 tablets a day on a daily basis, choosing the food supplement suggested in the protocol.

baldness and/or thinning, miniaturisation*

Preparation	Pre shampoo treatment	Washing	Hydration	Post shampoo treatment	Supplement
Pre-Peeling. Carry out <i>Oxilock Plasma Reset**</i> for deep cleansing of the scalp	Apply <i>Densifying Sinergy Pre</i> concentrating on the most affected areas and pressing the product into the scalp with your fingertips to ensure it penetrates effectively into the skin. scalp problems*

Preparation	Washing	Hydration	Post shampoo treatment
Pre-Peeling. Carry out <i>Oxilock Plasma Reset**</i> for deep cleansing of the scalp	Apply <i>Libera shampoo</i> directly to the scalp, covering the whole of the scalp. Leave for 2-3 minutes, add water, emulsify, massage then rinse thoroughly	If needed, apply the mask or the most suitable <i>Ocrys</i> or <i>b.ju</i> conditioner, depending on the hair type. Leave to process then rinse thoroughly	Apply <i>Libera Sinergy</i> concentrating on the most affected areas and pressing the product into the scalp with your fingertips to ensure it penetrates effectively into the skin. Wait 5 minutes without massaging. Dry hair

the expert's tips

Fine hair

- Apply 50% of Kyklos Libera Sinergy to dry scalp before the shampoo.
- Leave on for 10 minutes, covering hair with a cap.
- Next apply Libera shampoo in line with the instructions.
- Apply the remaining 50% of Kyklos Libera Sinergy to damp scalp.
- Wait 5 minutes without massaging and without covering.
- Finish by drying the hair.

This protocol is used when scalp absorption capacity is decreased and a full vial is not required.

N.B: do not massage and never cover Sinergy vials after the shampoo.

* To know the frequency and duration of the paths, please consult the ***Kyklos Treatment Map***.

** Please refer to the ***Oxilock Plasma Reset*** step by step.
