A PASSION FOR RESEARCH

The first company to market **formaldehyde-free, safe and healthy straightening treatments** containing no toxic compounds. Protecting the health of professional, clients and hair is a priority for Jean Paul Mynè.

The continuous research of **innovative solutions**, developed to grant clients' wishes, has enabled Jean Paul Mynè to market in 20 countries worldwide and to gain a high level of respect in Italy.

Jean Paul Mynè is synonymous with excellence in the hair straightening and anti-frizz systems.

RESPECT FOR NATURALNESS

All the Jean Paul Mynè treatments **make hair lively and healthy, do not break the sulfur bridges and revitalize the structure.**

Effective since the first time, they guarantee a restructuring and healthy action at every application.

TOOLS IN YOUR SKILLED HANDS!

Jean Paul Mynè **treatment's life is guaranteed only on condition that you use PERSONAL CARE after-care line.** Shampoo, Conditioner, Revital Mask and Vetiver Oil are the indispensable allies to ensure a long-lasting performance. This line is specifically developed to work in synergy with the treatments.

For those who suffer from scalp sensitivity, Jean Paul Mynè suggests NAVITAS after-care line, recommended after the straightening treatment, too.
